### User Benefits

The Pico Genie P200 is a tiny projector small enough to fit in the palm of your hand. It can connect to an external tripod at 200 lumens of brightness !

Extensive connectivity options makes the Pico Genie P200 ideal to connect with any mobile device. Equipped with HDMI, USB and MicroSD it can playback any content anywhere.

The Pico Genie P200 LED projector is super bright for such a tiny device, packed with 200 lumens of brightness it can be used on it's inbuilt battery power for up to 1 hours (or mains with inbuilt mains charger).

Connect to Android, Windows and iPhone. Connect to Android via MHL cables or to Apple with an AV adapter from Apple.

### Package contents

Projector ( +manual)

Cloth Case

HDMI cable (Type A)

Power Supply

MHL Cable

Remote

The NEW Pico Genie P200 is one of the smallest portable LED projectors with an incredible 200 lumens, by far the best in its tier. From the palm of your hand the P200 allows you to create a super bright image at over 120".

Sharing content has been made easy, just connect up your USB, Micro SD or HDMI connected device and project anywhere. The P200 is ideal for home use, travelling, business, education environments or even a portable home cinema!

At just 110 x 95 x 28mm the P200 really can fit in your pocket. Packing a mighty 200 lumens this LED pico projector will produce a high brightness image from it's inbuilt battery. With a powerful in-built battery the P200 can be used in almost any location with or without mains power.

The P200's sleek high gloss design makes this new pico projector stand out from the crowd. Whether it's going to be used for business, education, sales, travelling or simply home use the P200 will make an impression in any environment.

You can mirror your Android mobile phone or tablet screens as well as mirror your Apple screen on iPhone 4s (or higher) or iPad 2 (or higher). You can mirror the screen of your laptops using HDMI cables (or HDMI converter for Apple devices).

You can use the projector as a stand alone device and put content onto a USB Stick or SD card so no laptop is required.

Use it in the office, education environment, at home or on the road to share on a bigger screen.

Released April 2016

# Pico Genie P200
